

# WEB LICENSE TERMS

## The Web License allows you to:

- Post the video on your website (using a native player)
- Include the video in a live stream of your service online
- Include the video in a recording of your service online

## The Web License DOES NOT allow you to:

- Upload the video to youtube or other video sharing sites UNLESS posted in the context of a service
- Broadcast the video on television or any other medium

## Why a Web License?

We're aware that churches are using videos in a number of settings, including the web, so we've added a Web License upgrade on select videos to give you more freedom in how you share the video with your congregation. The web license includes our standard license (public performance in a single setting), as well as the additional features as noted above.

---

\*While this license makes the content available for you to use in these ways, we cannot guarantee that social sharing sites like Facebook and YouTube will not flag or block this content unintentionally. We encourage testing to ensure these possible issues don't arise as you stream or share your service online.
